'BIG BROTHERS' WILL TAKE CARE OF LITTLE CHAPS

Prominent Business and Professional Men Interested in Behalf of Youngsters

The local street urchin, whether he be a seller of newspapers or a truant from school, who is hailed before the juvenile court to face, perhaps, a term in the reform school for an offense unbecoming in one of his age, in the future is to be given a better opportunity to make a man of himself and to become a citizen of which, some day, this territory may well be proud. It has all come about through the recent reorganization of the "Big Brother" movement in Honolulu, now being given impetus by the Men's League of Central Union church through its representative, W. R. Humphries, boys' work director of the Palama Settlement.

Prominent business and professional men of this city to the number of 18 now are acting as Big Brothers, and each has under his care a boy, ranging in age from nine to 16 years, who, at some time or another, has been arrested and brought before Judge W. L. Whitney's juvenile court. The present members of the Big Brother corps of Honolulu are George R. Carter, W. C. Purer, Jeff McCann, Dr. Doremus Scudder, Paul Super, Rev. A. A. Ebersole, J. Alfred Magoon, E. O. White, Vaughan MacCaughy, W. G. Hall, W. J. Forbes, E. A. Berndt, R. M. Cross, George A. Brown, Glenn E. Jackson and J. M. McChesney.

The Big Brother movement has become nation-wide in the United States, and already has made good headway in Honolulu. These boys who have been taken into the care of prominent business men are not necessarily bad boys. But, rather than have them placed in a reform school where, perhaps, the bitterness of their confinement only serves to make them vicious in their desire for revenge, Honolulu men have consented to take one boy each in charge, look into his home life and, if it is necessary that he go to work, secure him employment. Then, too, the Big

FRENCH OFFICERS WILL SEE PARADE AT FORT SHAFTER

Admiral Huguet and several officers of the French cruiser Montcalm will have an opportunity to see United States troops on parade this afternoon, thereby gratifying a wish that they have expressed since making port. As the guests of General Macomb, the party will motor to Fort Shafter to witness a regimental parade and review of the 2nd Infantry. The ceremony will take place at 5 o'clock.

After the parade the officers of the 2nd Infantry, headed by Colonel French, will call on Brigadier-General Clarence Edwards, the new commander of the 1st Hawaiian Brigade, who is staying with Major Williams, at Fort Shafter.

The French officers will be informally entertained after the ceremony.

Brother looks after the boy's health and amusements.

In other words, instead of sending the boy to the reform school, the judge puts him on probation and in charge of a man who fits his needs. The boy that is taught to look upon the brighter side of life, and according to the report of the New York office, thousands of boys are taken off the streets each year and transformed into good citizens.

By a vote of 107 to 29 the New York assembly adopted the Republican investigation plan.

INTR-ISLAND FUNISHES DATA T COMMISSION

Members May Make Trip Over Line Corporation Before Be Completed

"As the Inter-Island Steam Navigation company has furnished the public utility commission with the necessary data required by the latter for its investigation of the company, from now on, March 13, the date of the initial hearing, the commission will have time to formulate its line of action," said E. A. Mott-Smith, chairman of the public utility commission, this morning. "The public has been on two weeks' notice of the hearing compliance with Section 10 of the utilities act." The initial hearing will be held in the rooms of the commission, Steigenwald building, at 1 o'clock in the afternoon, and will be open to all those who may be interested.

"The investigation will be very complete, both to the affairs of the company shown by its books and by actual ratings," continued Mr. Mott-Smith. "It will doubtless necessitate a merger of the commission going over a company's lines and seeing its stations on the grounds. The report that commissioner will have a data bearing on the fixing of rates, there to be based on the physical conditions and difficulties. It cannot be ascertained at this time just how far the investigation will last, as the commission intends going into the matter in as thorough a manner as possible."

AD CLO'S GOOD ROADMEN WILL SUPPLY SHOVELS

(Continued from page one)

ager of the matter, is offering," said McCandless this morning. "You can say for me that we'll get 'em!"

Upon which, called out and there resulted a commotion with the other members of the committee. They decided to take the matter up.

Then forth, on another citizen, J. L. Young, in on behalf of the Lord-Young colony, so Chairman McCandless stated this afternoon, he offered the use of the picks and shovels to supply those 200 unemployed men.

"It's ridiculous that's what it is, that the city couldn't take advantage of this offer," says McCandless. "It's not going to take employment away from any men. You can say for our committee that we're going to see that if the city can't furnish equipment for them, we will get it furnished and take to Mr. Young, it can be furnished right away."

Supervisors to Consider.

"The offer of men to furnish 200 laborers to the city and county without charge, will be passed on definitely by the board of supervisors at its meeting Tuesday night."

The laborers, it was said today, belong to the immigrant class; most of them came here from Spain and Portugal. They are out of work temporarily, due to the fact that they left their places on plantations and came to the city, thinking they could better their condition. The result has been that they were on the want, and now need to be cared for until later in the season, when a summer pineapple pack will be on, when there will be a demand for many laborers.

Question of Legality.

The question of legality has been raised by some of the supervisors. They take their stand on the territorial statute of 1909 relating to the employment of none of citizen labor in the public service.

For the benefit of the supervisors and the public, the Star-Bulletin quotes below the statute, which is act 23 of the session law of 1909. It will be noticed that under certain conditions non-citizen labor may be employed:

From act 23 of the session laws of 1909:

"All officers, deputies, clerks, police, laborers and other persons employed in the service of the government of the territory of Hawaii, or in the service of any county or municipal subdivision of said territory shall be citizens or eligible to become citizens of the United States of America; except that in case where it is not reasonably practicable to obtain citizens competent for such service, persons other than citizens may be employed."

The Tovo Klean Kalish liner Anyo Maru is the next vessel in the Central and South America service to steam from the nitrate pits for Honolulu. The steamer is here in the early part of April.

A return cargo of sugar will be placed aboard the schooner Annie Johnson upon arrival at Mahukoua. The vessel is now on way down from San Francisco, bearing a cargo of general merchandise and lumber.
